

Garbely Publishing: There has always been a crossover of interest between rail and marine operations. That was especially true for the roads that served east and west coast ports. Tapping into those interests will be a new book this coming November titled **Diesel Railroad Tug Boats Vol. 1: East Coast**. This \$80.00 list price book is promised to contain approximately 400 pages filled with photos, text, drawings, rosters etc. Their **Railroads of Port Jervis Vol. 1: Erie Railroad and Predecessors** remains on schedule for delivery later this month. Same can be said for the mid July release of **Delaware & Hudson Final Years 1968 - 1991**.

Morning Sun: Confirming delivery and delivery dates for the next group of titles:

**Nickel Plate Power in Color** – Arrived and in stock.

**Trackside Around New England 1967 - 2020** – May 18, 2022

**Mahoning Valley Rails in Color 1988 - 2006** – June 20, 2022

**Chesapeake & Ohio Power in Color Vol. 2: First-Generation Roadswitchers**  
– July 18, 2022

Morning Sun has confirmed to us a 12 book fall schedule. Titles will be announced in the next few weeks. Their older titles continue to sell especially when they are waved under a customer's nose. Some retailers have chosen to specialize in a topic such as Color Guides or the Trackside series and others have chosen a region of the country and the roads that served it. Any current release might not strike an interest with you but there are plenty of older titles that fit your business model perfectly.

Silverlake Images: **Book 35 - Atlas Electric Locomotives** and **Book 36 - Railroad Cranes Vol. 1 Burro, Byers, Lambert and P&H** have both recently gone to the printer. They should be available by the end of month at the latest. **Book 37 Heisler Locomotives Vol. 2: Geared Locomotives** and **Book 38 Fairbanks - Morse Locomotives Vol. 1: Diesels** will be the next two up sometime in June. Price will remain at \$35.00 each.

White River Productions: Newly announced is their next title **Kansas City Southern; Midwest Division**. It is expect to be another high quality, larger format production with a "summerish" delivery. Price will be \$89.95.
