

This report notes titles which are going out of print. The number after the title (x) is the quantity on hand as this is being written.

Garbely Publishing

Arrivals:

New York, Susquehanna and Western Vol. 1: Jersey City to Passaic Junction

Diesel Railroad Tug Boats Vol. 1: East Coast (another of their typical bible approach to a titled subject matter!)

Departures:

Delaware & Hudson Final Years – after about three months on the market place this title is down to about handful unspoken for on our shelf with the publisher completely sold out. A reprint is a possibility but it would be sometime in the new year when all inventory is gone and a demand has been established.

Now or Never:

Conrail Business & Research Trains - Special Equipment Fleet

CRHS's Comprehensive Guide to Conrail Cabooses

Both of the above titles are slowly finding their way out the door. They will be restocked for as long as possible but their demise is clearly in sight. There has been no talk of a reprint for either title.
